Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The prior art references were discussed in terms of "fixed bed" versus "fluidized bed", and it was discussed and agreed upon that there is no proper motivation to use the erosion inhibiting of fluidized bed structures taught in the disclosures of Nagamura et al. and Bonn et al. for the applicant's claims of providing a method for inhibiting erosion of the interior surfaces of a fixed bed. The examiner says that further searching for references related to fixed beds will be conducted. The applicant agreed to combine claims 29 and 30, while further adding a dependent claim that shows a further embodiment of Figure 2. It was also discussed and agreed upon that the non-elected claims be cancelled in the applicant's response.
